David-

I've appreciated your traveling every week to our site to work on cleanup, building maintenance details, lawn upkeep, extra garbage left around buildings, replacing ceiling tiles, sealing roof leaks, painting hallways, doors (exterior) and yellow protection areas, elec. room door locks and I'm sure there are a host of other activities you have performed that I'm not aware of or have forgotten. Because of your close monitoring of our center you have held our CFM costs down and held increases off.

Thanks,

Walter White
